

PAPERLESS MANAGEMENT SYSTEMS!

Your key to efficiency and profitability

ONLINE PAPERLESS MANAGEMENT SYSTEMS

In line with our business objectives of 'KISS – Keep it simple & short', we are now delighted to introduce a first of its kind IT applications in the international market for making your management system paperless on shore as well as ships !

While research has shown that over 80 percent of the businesses are struggling to manage their paper based management systems including audits, inspections, legal registers, checklists and other documents, paperless system delivers superlative performance by reducing the process lifecycle by over 60% resulting in increased efficiencies, accountability and profitability. Further, it reduces manpower as well as space required for storage of documents, records and archives which can be effectively utilized for other productive purposes. And most importantly our system is offered in any international language of your choice ! Our innovative web based and android applications ensure that you can drive your business in top gear rather than your business driving you !

MANUALS, AUDITS & INSPECTIONS ON THE GO !

Our paperless solutions offers two scalable options:

- **Option 1** – You can use our ready to use online plug & play management systems which are currently being offered for ISM Code, ISO 9001, ISO 14001, ISO 22000, ISO 29001, OHSAS 18001 and ISO 50001
- **Option 2** – We convert your existing management systems from paper to paperless customized to your requirements.

All you have to do is to login to our website and you have a readymade system to work on with:

- Online manuals / SOPs
